

STUDENT EXCHANGE APPENDIX
to the
AGREEMENT OF COOPERATION
between
STATE UNIVERSITY OF NEW YORK AT STONY BROOK
UNITED STATES OF AMERICA
and the
THE INSTITUTE OF NUCLEAR CHEMISTRY,
FACULTY OF CHEMISTRY AND PHARMACY,
JOHANNES GUTENBERG-UNIVERSITÄT MAINZ GERMANY

In accordance with Section II of the Agreement of Cooperation, the following mechanisms designed to encourage and facilitate exchange of students are hereby established:

1. Students are to be exchanged for the following period:
full academic year and/or spring or fall semester only
2. The number of students to be exchanged each year will be three. The universities agree to try to achieve full reciprocity, that is, to exchange an equal number of students by the end of this Agreement period.
3. Initial selection of students will take place at the home institution; however, the host institution reserves the right to deny admission to any student not meeting its general admission criteria.
4. Student dossiers should be received at the host institution no later than March 15 for fall admissions and July 15 for spring admissions for State University of New York at Stony Brook and January 15 for the summer semester and July 15 for the autumn semester at Johannes Gutenberg-Universität Mainz.
5. Each host university will do its utmost to secure accommodations for incoming students, provided the students meet all requirements and deadlines. Students will be responsible for their own housing costs.
6. The host university will waive tuition charges for the incoming exchange students and will inform them in a timely fashion concerning fees and expenses for which the student will be responsible.
7. Students shall be responsible for obtaining health insurance coverage to the satisfaction of the host institution.
8. Students must be enrolled in a full-time course load at the host university for the duration of the program. At Stony Brook, this equals a minimum of 12 credit hours per semester. At Johannes Gutenberg-Universität Mainz this equals a minimum of six points per semester or a minimum of 12 points per years.
9. Students will be free to choose courses from the full range of courses available at the hosting institution, provided they satisfy the course prerequisites and space is available.

10. Students who participate in the exchange program will not be degree candidates at the host university.
11. Both institutes must approve any extension of stay beyond the original length determined. A student who wishes to apply for degree status must reapply to the host university and follow the appropriate application procedures of the host university.
12. At the end of a student's program overseas, each host university will provide the exchange student with an official record of coursework completed at the host institution.
13. Each university will assess academic work completed at the partner institution and will award credit to its students in accordance with its own academic policies and regulations.

This Appendix shall be in effect for the same period as the Agreement of Cooperation and may be adjusted in writing upon mutual agreement of the two parties. For matters not covered in the Appendix, the universities shall consult the Agreement of Cooperation.

For Johannes Gutenberg-Universität Mainz:

For the State University of New York,
Stony Brook:

Frank Rösch 30.1.04

Professor Dr. rer.nat. Frank Rösch (Date)
Institute for Nuclear Chemistry
Johannes Gutenberg-Universität Mainz

W. Arens 8/18/04

Dr. William Arens (Date)
Dean of International Academic Programs
State University of New York, Stony
Brook

Jörg Michaelis 2.2.04

Professor Dr. med. Jörg Michaelis (Date)
President
Johannes Gutenberg-Universität Mainz

(seal)

Shirley Strum Kenny 9/9/04

Shirley Strum Kenny, Ph.D. (Date)
President
State University of New York, Stony
Brook
